AUTOMATIC ABOVE-GROUND COVER

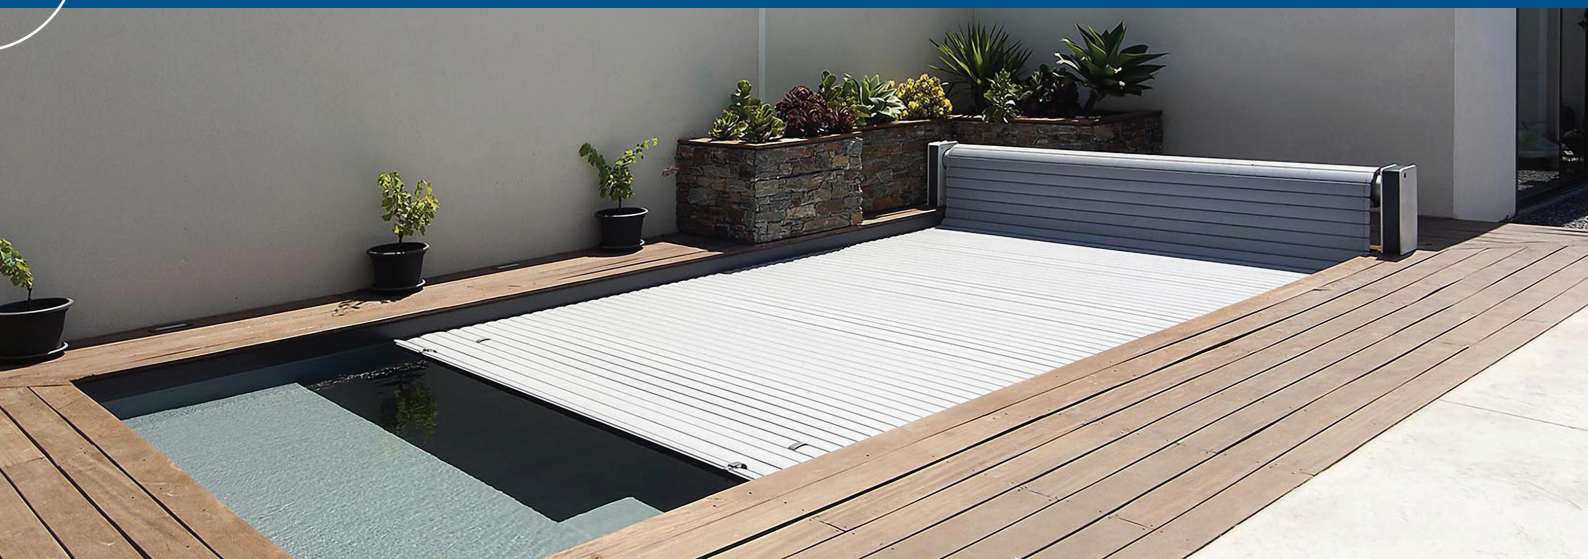

- Streamlined finish with a contemporary design
- A collection of 4 colors
- French manufacturing
- Cover Connect app to control the cover

**3 YEARS**  
WARRANTY  
ON MOTOR  
AND BOX

## Why choose the SVELTEA automatic cover

**GUARANTEED SAFETY** The SVELTEA automatic cover ensures optimal pool safety. It complies with the **NF P90-308** standard according to the safety system chosen:

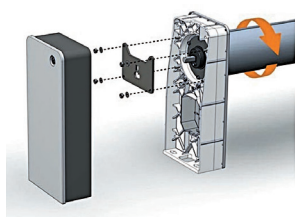

- **Stainless steel safety system**, the cover is compliant if, and only if, the **interior width of the pool is greater than or equal to 2.30 m**.
- **Safety system in ABS** or with **FABRIC** strap, the cover is compliant if, and only if, the **interior width of the pool is equal to or greater than 2 m**.

Heavy-duty wall- or top-mount clamps close and secure the pool permanently. Once attached, access to the water is not possible\*.

Once closed, the SVELTEA cover also protects the pool from impurities: leaves, pollen, dust, etc.

It also provides a thermal barrier, reducing water evaporation and heat loss.

## TECHNICAL AND PRACTICAL BENEFITS

**Easy to use:** thanks to its tubular motor fitted in the roller shaft and with a simple turn of the key or from your smartphone via the optional Cover Connect App, the cover rolls up and unrolls in no time.

**Disengageable motor:** for greater peace of mind and to secure the pool manually in case of a prolonged power cut or other malfunction.

**Peace of mind:** Sveltéa is fitted with a limit switch system as standard. Once closed, **the cover stops automatically at the end of the pool**.

**Perfectly adapted to market developments:** for users who have opted for water treatment with a salt water chlorinator, this option is available. According to the instructions you send to the chlorinator, the chlorine will be produced automatically depending on whether the automatic cover is open or closed.

## AESTHETIC, FRENCH MANUFACTURE

The 146 mm diameter roller shaft is made of anodized aluminum. The colored band of the base is made of powder-coated aluminum. The rest of the cover is made of ASA, a polymer that is particularly resistant to weathering and UV radiation.

4 trendy colors for the base in perfect harmony with the white border: **Dark Grey, Light Grey, Turquoise Blue, White**.

And for even more harmony, the stainless steel safety straps match the color of the PVC slats.

*\* Important: a safety cover is not a substitute for common sense or individual responsibility. It is not intended to replace the vigilance of parents and adults, who still have to be there to protect others, especially young children.*

The SVELTEA automatic cover is **EXCLUSIVE**

SWITCH ON BASE

Motor: **Disengageable tubular**

**COVER CONNECT**  
OPTIONAL

Pool (inner dim.): **5 x 10 m max.**

**3 YEARS**  
WARRANTY ON MOTOR AND BOX

Roller: **motorized WITH limit switch.**  
**OPTIONAL** chlorination contact.

Base: 

**MOBILE APP COVER CONNECT** (EN OPTION)

Integrated directly in the base, the Bluetooth receiver is invisible to the naked eye.

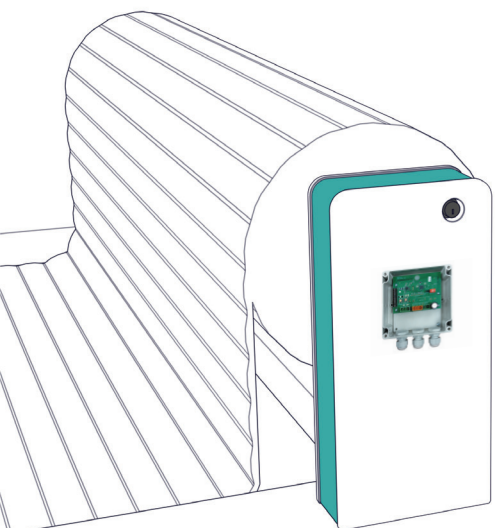

The application lets you open and close the cover easily.

In order to comply with the **NF P90-308** standard, the user must be close to the pool.

After an initial quick pairing procedure, the connection is automatic on an unlimited number of smartphones.

Available on Android and iOS in 8 languages.

As an option, a wireless wall control unit can be fitted for even more versatility and convenience. A key ring remote control is available as an option, but does not comply with the NF P90-308 standard.

**Optional: Bluetooth receiver integrated in the base**

**Key ring remote control (optional)**  
Not compliant with the NF P90-308 standard

**Wireless wall control (optional)**

**Mobile app COVER CONNECT**

# SVELTEA, THE COMPONENTS:

The slats are an integral component of the automatic above-ground cover. They must comply with the standard and be aesthetic and hard-wearing.

The PVC slats guarantee:

- Standard compliance,
- UV and shock resistance,
- A sleek slat profile and a wide range of colors to complement the surroundings,
- Excellent buoyancy and watertightness thanks to the welded caps,
- 3 years waterproofness warranty,
- Compatibility with water treatment by salt water chlorinator,
- PVC slats can be cut to fit all pool shapes and sizes.

## OPTION: WINTERING NET FOR AUTOMATIC COVER

The net cover is a very economical way of protecting your slats in winter and guarantees a much easier and faster reopening of the pool in spring by preventing leaves, pine needles and other undesirable stains from tarnishing the cover. Very light net in grey color, fastened to all 4 corners of the pool.
